

Fluence - a new model of Renault

Renault will introduce in the autumn to sell a new sedan - model Fluence. Auto has become one of the best deals . Distinguishing this car from the competition is sharp body lines, comfortable interior and lots of useful technology.

New Renault has a length of 4 620 mm, width 1 809 mm, height 1 479 mm and a wheelbase of 2 702 mm. The boot has a capacity of 530 l. The manufacturer also boasts a large space in the passenger compartment, and ergonomics, which seeks to ensure comfort. Passengers can enjoy a serial air conditioning with independent front and rear positions. Also not forgotten the many compartments and divided and compound rear bench seat. Renault Fluence will be equipped with many gadgets and devices useful in the operation of the vehicle, such as the Renault Card "Hands Free" with the function closing the door on the distance from the car, or a new satellite navigation system TomTom Carminat at less than 1990 gold. The offer will be multiple radios, among them first-class device: 3D Sound by Arkamys, speakerphone and Bluetooth phone to the digital connector plug & Music. Baby will serynie equipped with ABS with brake assist, ESC to 6 airbags, voltage limiter tensioner and belt from 3-point mount and speed limiter. New Renault will be powered by four petrol engines and five diesel units. For now, just know about them so that they emit less than 119 g CO₂ / km. Renault also claims that in 2011 will be electric-powered version. The car is the successor to the four-door Megane II and, like the model will be installed on production lines Oyak-Renault plant in Bursa (Turkey).
